Title: *Tank Commander*
Format: PC CD-ROM
From: Domark
Price: £38.99

This is another nice little game, with stacks of missions to keep anyone happy. The game looks very good, the graphics are nice and colourful and well detailed, and the Full Motion Video sequences add another nice touch. There are plenty of weapons to boost your tanks firepower ranging from a machine gun and cannons to a flame-thrower and the serious armour piercing missiles. I found that the best way to play this is to plot your course in the start of each mission, this leaves you free to blast everything to bits. I am not normally keen on these type of games, but this has changed my opinion. Another bonus to this game is that you can play other people over a network, and with 40 missions to play, this should keep you going for ages.

PC supplied by Microcare, game by Domark.

Title: *Return Fire*
Format: 3DO
From: Studio 3DO
Price: £38.99 at Microcare

This is a superb shoot-'em-up, the best yet for the 3DO without a doubt. If going around in any one of four different vehicles and blasting everything to millions of little pieces before you collect a flag to finish a level is your cup of tea, then this game must have been made just for you. Return Fire has got everything going for it, it looks great, the graphics are first class, nice and detailed and the views are changing every

couple of seconds so you don't miss out on any of the action. It must be one of the best sounding games around, the effects are cracking, and it has plenty of levels to keep you happy when playing on your own, but if you play with someone else this will last ages. If you own a 3DO you really should get this.

Console and game supplied by Microcare.
