# STAR CONTROL II

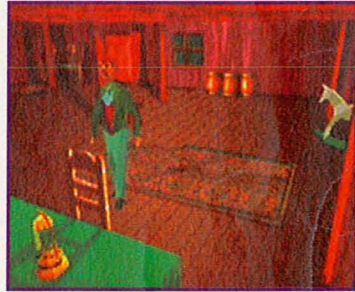

The sequel to the original PC hit Star Control will soon be making its way over to the 3DO. In this psychotic space adventure from Crystal Dynamics, you are a spaceship captain who must find a way to free humanity from an evil emperor. Throughout your quest, you have the ability to explore over 3,000 planets, in 500 star systems. The graphics in Star Control are rendered so well, they are simply breathtaking. Star Control takes advantage of the 3DO powerful CD capabilities, with digitized voices for more than 18 alien races. This is definitely a game that is very hard to stop playing once you start to get into it! Don't waste any time, for the fate of the entire civilization rests in the palm of your hand. This may very well be one of the best sci-fi games to hit the 3DO in '94, so check it out!

# ALONE IN THE DARK

Don't be afraid of the dark ... that is ... not until you travel into this world of darkness from Interplay! Discover the dreaded secrets and unspeakable evils of Derceto in the heightened reality and cinematic power of the 3DO. Alone in the Dark, an incredible port from the computer genre, brings to life the perilous evils and dangers with cinematic zooms, pans, and close-ups. Dark handpainted backgrounds, hideous hidden monsters, eerie sounds, and creaking stairs plunge the player into the black depths of this bone-chilling world.

# RETURN FIRE

Return Fire is the first action/strategy game for the 3DO from Silent Software. Begin the game with four units: a tank, a helicopter, an armored truck, and a jeep. You'll use these four vehicles as you play 'capture the flag' with the enemy bases. Use the helicopter to fly over the enemy's base and seek out the fort. Then, send in the big boys to wipe out their defensive turrets and land mines. This one- or two-player game uses a split-screen so everyone can have fun. Return Fire also features an infinite-perspective view and incredibly realistic sounds and graphics for the ultimate in playing realism. Return Fire is must-have title for all action/strategy game lovers.
