THE YOUTH INTERNATIONAL PARTY

June, 1971

LINE'S FIRST ISSUE

We at YIPL would
like to offer
thanks to.

all you phreeks

out there. Most of you who are now
receiving this met us in Washington on Mayday,
where we distributed 10,000 promo flyers. So far
we have received over 50 responses, complete with
contributions, encouragement, and spirit. We may
not have done well percentage-wise, but the fact
that there are 50 people all over the country willing
to fight back speaks for itself. We are sure that from
the spirit of the response, YIPL membership will really
skyrocket. However, more important than our numbers,
in our opinion, is the feeling and motivation for this
movement. The disappointment we feel toward Amerika has
turned to hatred as we saw the futility of the movement
to improve it, and to frustration as our outside efforts
were repressed and forbidden. But we did not turn our
backs on the movement for change. YIPL believes that
education alone cannot affect the System, but education
can be an invaluable tool for those willing to use it.
Specifically, YIPL will show you why something must be
done immediately in regard, of course, to the improper
control of the communication in this country by none
other than the BELL TELEPHONE COMPANY.

So if your friends want to get in on the fun, let them
read your newsletter, and you might want to research your
own questions in your local library, and help to start the
education of your community of the phone company's part in the
war against the poor, the non-white, the non-conformist, and in
general, against the people. Show your neighbors, friends and the
representatives of your area how the Bell System and the Amerikan
government are co-conspirators. If your friends can't subscribe to
YIPL, that; is cool, is convenient for our small staff, and is right on
if they can send a buck as a donation and read your newsletter. We also
need stamps, letters, and envelopes, which maybe they can get from their
office at work. Because we are already sending out issues to people short
on bread, we really do need this kind of help. We will report on all of our
finances from time to time, and if you can dig it, we will probably need some
kind of bail fund set up. If any YIPL busts happen, we'd like to ask you all
in advance to work extra hard for the cause. People, thanks again. Love

THE CREDIT CARD CODE

The 1971 Credit Card system works as follows: The telephone number(7digits)
of the number to be billed is followed by the secret number for the area
code of the number. They are listed below for several cities. At the end
of the number comes a letter that matches the sixth digit of the telephone
number. Many people look up the number of a large Company in the area and
use their number, cause using any old number might lead to that person
refusing to pay, and the Phone Company's hasseling the person to whom the
call was placed. They should say that others use that phone, and they don't
know anything. Fraud is illegal, so we don't think you should make free calls.
This Code has already been printed in many underground papers, as you know.

Detroit-083	Boston-001	Phila.-041	1=Q	4=H	7=R	0=Z
Washington-032	San Fran-158	Pitts.-030	2=A	5=J	8=U	
New York-021	Chicago-097		3=E	6=N	9=W	

Example- 769-1900-069-Z (I.B.M. ,Amant,N.Y.)

TECHNICAL INFORMATION

As long as you're paying a bill, the phone company will tend to let you be. We all know that you might have extra phones you want connected as freebees. Not Western Electric phones, of course. Remember, the phone company "frowns upon" hooking them up yourself, so we suggest you have a friend do it.

On-hook voltage: 45 V

Off-hook voltage: 4.5 V

Ring pulses: 90 V

your telephone line is usually a red and a green wire. A yellow is sometimes used for ringing. Unscrew your storebought phone on the bottom and you will find a box with a bunch of screws on it. Connecting as in the diagram will activate it. Some people say disconnecting the bell on that phone will keep it a secret from "Them".

Ever wonder how those conference call makers that are sold on the commercial market work? What they do is as follows:

Flicking a switch up puts the phone on that number. Flicking it down puts that number on "hold". The center position turns the number off. The resistor keeps the line "off the hook" electrically, so if it is on hold, you will not be able to receive phone calls on that number. Your line would appear "busy" to callers. Simple enough?

Yippies have been known to fool around with shit like this from time to time without the permission of their local telephone company and even though they usually get away with it, we at YIPL would never think of advocating that type of irresponsible activity. You should always check with your local phone company to pay them any extra money that you might be responsible to them for, before ever fooling around with your phone. The phone company is our friend, and they are here to help you.

LETTERS TO THE EDITOR

Dear phreeks,
I'm a phreeks in need of information,
so I can balance the score between the
Bell Kompany & the people. I enclose
a dollar. Your brother in the move-
ment-H.M., Jamestown, H.D.

My dearest sirs:

Nothing pleasures me more than ripping
off Mother Bell. Please send news-
letter. Enclosed is \$1 U.S. Also-a
question...A few friends of mine make
long distance calls free from pay
phone booths by holding the mouth-
piece of the phone they're using up to
the phone next to it so the operator
hears the change jingle and makes the
connection. I've tried it here in D.C.
and the operator says the cash hasn't
registered(which of course it hasn't).
Please tell why. Thanks a lot. E.S.,
DuBois, Pa.

In our nation's Kapital there are
the shiny new pay phones that work ele-
ctronically, instead of the ding (5¢),
ding-ding (10¢) or dong (25¢). New ones
have only one slot for deposit, and on
old ones your trick works, but hold
the handset close to that phone!

Editor

Send me the shit and don't rip me off
(please) S.M., Winchester, Pa.

Dear Y.I.P.L.,

I thought you might be interested in
a movement started here in Lancaster.
The movement is to have people who
wish to see our troops out of Vietnam
this year call their local phone com-
pany manager and have their phone re-
moved. The manager must be told why
if it is to have any effect. Hopefully
enough people will feel strongly & give
up phone service to begin showing up
on the profits of the phone company.
This would push the phone lobbies to
speak out(Bell especially) to end our
continued involvement there. If you
can assist in any way by encouraging
this to take place in other areas it
would be appreciated. Thanks! J.G.,
Lancaster, Pa.

Hi People,

Here's my bill, send me shit on fuck-
ing the Bell System. Man do I need
info on this kinda shit thanks D.B.,
State College, Pa.

OUR FRIENDLY PHONE COMPANY....

One example of eavesdropping that touches a vast number of Americans was
related to the Subcommittee by Joseph Beirne, President of the Communications
Workers of America. He revealed that the phone company does not limit its
invasions of privacy to assisting the FBI and other government tappers. He
pointed out that "as part of its training program, and as part of its con-
tinuing close supervision of its employees, the telephone industry has developed
equipment for monitoring its operators, its service assistants, its commercial
office employees-in short, all of its employees who deal with the customer. Such
monitoring means, of course, that the customer is, in effect, monitored at the same
same time."

"An alert snooper is sometimes able to obtain the information he needs simply
by calling the telephone office and posing as a telephone repairman. Or, if
the tapper is a law-enforcement officer, he may be able to secure the outright
cooperation of the telephone company in the placing of his taps. In Kansas
City, the existence of just such an arrangement between the telephone company
and the chief of police was revealed."

The above two quotes were made by Senator Edward V. Long.

In the office we call it "The System", and use of the word "the" means dog-
matic finality. The wall comes up pretty fast when you start tampering with
the way things are done within The System, and you either slow down and do
things Bell's way or knock your brains out.-AT&T junior executive, spring, 1967

-Congressional Record, February 23, 1966.

pany and your congressmen:

Date_____

testify to my opposition by refusing to pay this tax.

around the world to die defending an unpopular, totalitarian and corrupt regime.

by refusing to pay the telephone excise tax that helps finance it.

Sincerely in peace,

New York, N.Y. 10012
